Re: Follow-up Information Request Letter Related to Stringfellow Superfund Site

Dear Mr. Patel:

We would like to request certain additional information based on our review of the Company's response. EPA asks that you respond to the following supplemental requests.

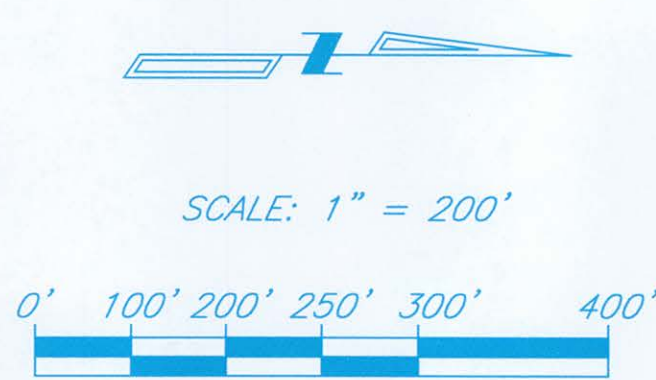

Supplemental Requests:

3. EPA obtained a copy of the Company's September 12, 2008 response submitted to the California Department of Toxic Substances Control ("DTSC") by its contractor, Southland Engineering. However, the map attached to the 2008 response as Appendix A, which consisted of a site plan with labels of the Company's buildings A through R and a description of their uses, was not included. Provide a complete copy of the documents and maps submitted as Appendix A to the 2008 response.

EPA has the authority to request this information pursuant to Section 104(e) of Comprehensive Environmental Response, Compensation, and Liability Act of 1980 ("CERCLA"), 42 U.S.C. § 9604(e). Although we anticipate your cooperation in this matter, please note that failure to comply with EPA's information request, or to adequately justify such failure to respond, may subject you to an enforcement action seeking to compel compliance and collect penalties of up to \$37,500 per day of noncompliance pursuant to Section 104 (e)(5) of CERCLA, 42 U.S.C. § 9604(e)(5).

BUILDING DESCRIPTION (SQUARE FOOTAGE)

- (A) BUILDING A – EROSION CONTROL ASSEMBLY SHOP (770 FT²)
(B) BUILDING B – VACANT OFFICE BUILDING (464 FT²)
